

Steps to install JDK 8 (64-bit)

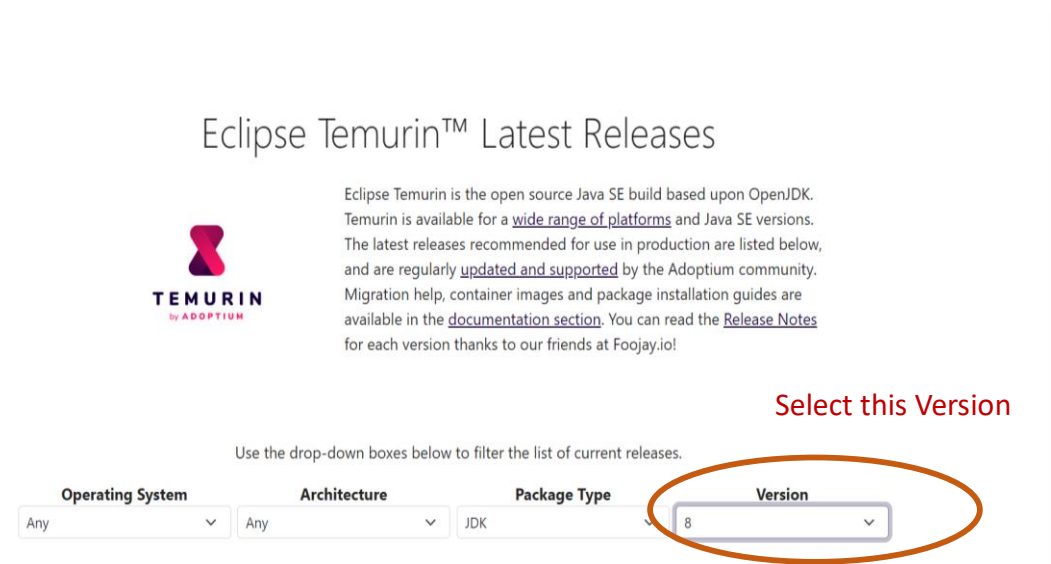

1. Download Open JDK 8 (64-bit) from link given below.

<https://adoptopenjdk.net/>

Step 2 : You will get the following page

Select the OS and Version 8.

Eclipse Temurin™ Latest Releases

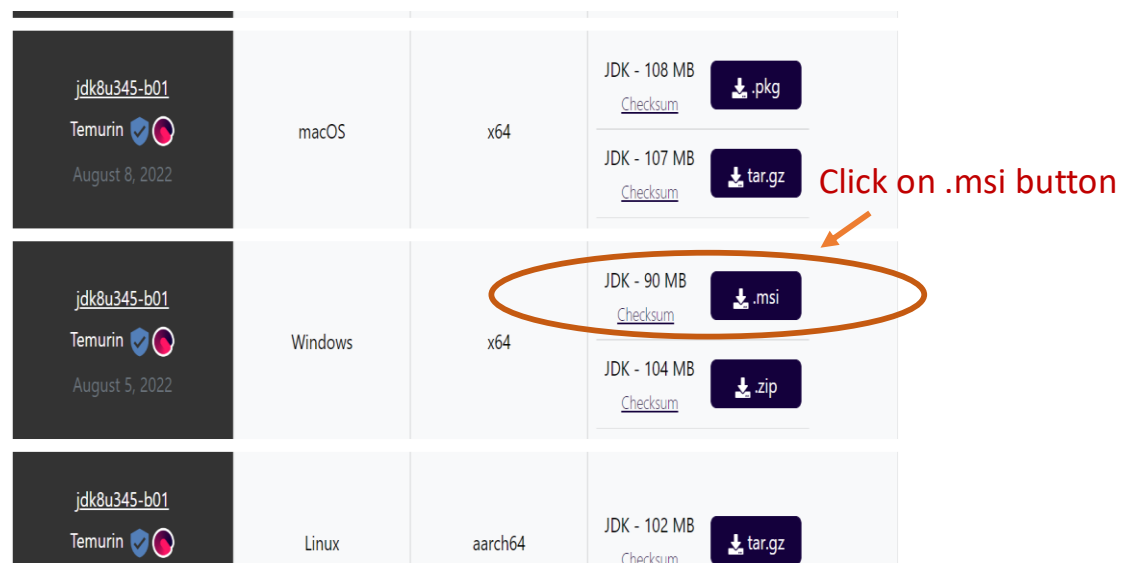

Eclipse Temurin is the open source Java SE build based upon OpenJDK. Temurin is available for a [wide range of platforms](#) and Java SE versions. The latest releases recommended for use in production are listed below, and are regularly [updated and supported](#) by the Adoptium community. Migration help, container images and package installation guides are available in the [documentation section](#). You can read the [Release Notes](#) for each version thanks to our friends at Foojay.io!

Use the drop-down boxes below to filter the list of current releases.

Operating System: Any | Architecture: Any | Package Type: JDK | Version: 8

Select this Version

Step 3 : On the same web page scroll down and You will get the following page. Click on .msi file and download it.

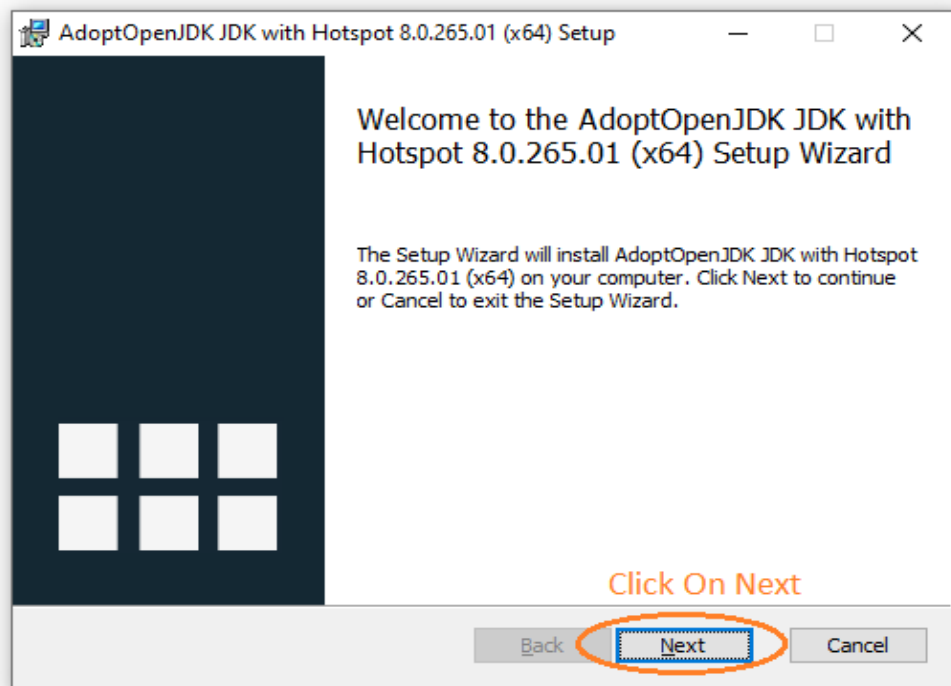

Version	OS	Architecture	Download Links
jdk8u345-b01 Temurin August 8, 2022	macOS	x64	JDK - 108 MB Checksum JDK - 107 MB Checksum Download .pkg Download tar.gz
jdk8u345-b01 Temurin August 5, 2022	Windows	x64	JDK - 90 MB Checksum JDK - 104 MB Checksum Download .msi Download zip
jdk8u345-b01 Temurin	Linux	aarch64	JDK - 102 MB Checksum Download tar.gz
